

**Save the cleft and special needs puppies!
We serve all of California. Oregon. Nevada. And Arizona!**

Hi, my name is Rachele and I run a non-profit (501c3) rescue, Fred's Friends dba Cleft Pup Brigade, dedicated to saving the lives of cleft and special needs puppies. We have saved over 1000 cleft pups alone and were the first cleft specific organization on the west coast 8 years ago! I take them in as newborns, tube feed them and get them the care that they need to grow and live healthy lives. Once 10-12 weeks and eating on their own, we adopt them out to approved homes. Please consider my organization for any cleft pups or special needs (hydrocephalus, deformities etc.), as we like to give them all a chance at life! No cleft is too large or too small, I will take them all. ALL BREEDS!

*Note to breeders, we are breeder friendly and everything is confidential. I'm just here to help. Call/text anytime **408-384-9741**. TEXT IS BEST FOR AN IMMEDIATE RESPONSE! I am located in NorCal near Sacramento but have transporters and volunteer pilots all over the state to help. I have temp foster homes in Alhambra, CA. Phoenix, Arizona. Las Vegas, Nevada. And Grants Pass, Oregon.
