

Save the cleft pups!

Hi, my name is Rachele and I run a non-profit animal rescue (Fred's Friends dba Cleft Pup Brigade) dedicated to saving the lives of cleft puppies. I take them in as newborns, tube feed them and get them the care that they need to grow and live healthy lives. Once 10-12 weeks and eating on their own, I spay/neuter them and of course have them UTD on vaccinations and adopt them out to approved homes. Please consider my organization for any cleft pups, as I like to give them all a chance, no cleft is too large or small, I will take them all.

***Note to breeders, I am breeder friendly and everything is confidential. I'm just here to help.**

Call/text anytime 408-384-9741 I am located in NorCal but have transporters all over the state to help and also do lots of driving myself.
